per la lotta contro i tumori

Mission:

The Edo and Elvo Tempia Foundation and the Fondo Edo Tempia work in unison employing a well-well-integrated and synergistic system with the Local Health Services, Universities and Research Centers, in order to support and improve the oncological programmes of the Piedmont Region.

They carry out social activities in the field of assistance looking after and preserving human health in the area of oncology. The Foundation became a member of UICC (in may 2007) it complies with Etich Cart values and joined IID (Donation Italian Institute) to safeguard the transparency and accuracy of donations.

ACTIVITIES

- **Health care** (primary, secondary and tertiary programmes to prevent cancer, encouraging a healthy lifestyle, check-ups and educational classes)
- **Early diagnosis surgeries** (free check-ups for the early diagnosis of cancer performed by specialists in mobile or fixed surgeries)
- **Regional screening programmes**
- **Public health support** (medical scientific equipment and instruments are offered to Hospitals and Health Units as well as the service and expertise of doctors, nurses and psychologists)
- **Psychoncology**
- **Palliative Care**
- **Research** (ideation, achievement and development of basic, clinical and translational scientific research projects)
- **Molecular oncology** (diagnosis in the Northeastern Piedmont area)
- **Cancer registry**
- **Training and medical scientific knowledge diffusion**

REGIONAL SCREENING PROGRAMMES

The Edo and Elvo Tempia Foundation cooperates with Local Health Services in the oncological screening programma called "Prevenzione Serena".

The Foundation cooperates by carryring out, developing and supporting the oncological screening programmes in Piedmont Region.

REGIONAL SCREENING PROGRAMMES

The organization, management, examination performance, information and awareness matured with over 30 years of screening, make the Foundation one of the main reference centers for regional screenings.

The Edo and Elvo Tempia Foundation was the first in Italy to use mobile units in cervical and breast cancer screening, at the end of the 80's.

ACTIVITIES

In the three regional screening programs (breast, cervical and colorectal cancer), the Tempia Foundation operates with its own medical, health and administrative staff for screening program evaluation, organization, management, examination performance and interpretation, in agreement with Local Health Service.

FONDAZIONE

EDO ed ELVO TEMPIA

per la lotta contro i tumori

We use both fixed and mobile surgeries equipped for cytological analysis.

For breast cancer screening **at the moment** we use only fixed surgeries equipped with the best health instruments. (in the past we used also mammography in the camper to reach the people who lived out of the city)

Codice Europeo contro il cancro

**Gli adulti di domani ci aiutano
a prevenire il cancro. Oggi**

Tempia Foundation launches awareness-raising campaigns to support oncological screening programmes through meetings and conferences and by using and distributing information and educational material.

Codice Europeo contro il cancro

**Gli adulti di domani ci aiutano
a prevenire il cancro. Oggi**

during the 2018 we realized (thanks to the contribution of Rotary) 12 videos to support the diffusion of the European Cancer Code.
